**Subject:** Fw: August 7 Samples

FYI

Sent from my BlackBerry 10 smartphone on the Verizon Wireless 4G LTE network.

All, the news about August 7 samples just got better. With the assistance of the local sheriff, we accessed the closed lab in Durango. We found that August 7 samples were running. That run is complete and data are being prepped for evaluation. We took the remaining samples from August 8. They are in transit to our Golden lab now and should start running tonight. Joan
